Postdoctoral Research Fellow Position
Condensed Matter Theory
NYU Shanghai

Pilkyung Moon’s group at NYU-Shanghai invites applications for one postdoctoral research fellow position in condensed matter theory, to start in the Fall or Winter of 2016. Appointments will be made for two years, renewable for a third year by mutual agreement. Areas of interest include, but are not limited to, low-dimensional systems, atomically-thin films, graphene, and nanotubes, along with other condensed matter theory.

Applicants are expected to have completed their Ph.D. in physics, material sciences, or related discipline. Preference will be given to applicants with a strong background in theoretical condensed matter physics and relevant analytical and/or computational experience. Successful candidate will be expected to carry out research in the general area of hard condensed matter physics and also to train and supervise students.

Applications received by February 1, 2016 will receive full consideration. Applications will be accepted until the position is filled. Interested applicants should send a curriculum vitae including a list of publications, a brief statement of research, electronic copies of up to five relevant publications, and a cover letter addressing their interest in the group. To complete the online process, applicants will be prompted to enter the names and email addresses of at least three referees. Each referee will be contacted to upload their reference letter. Please visit our website at http://shanghai.nyu.edu/about/work/faculty-positions for instructions and other information on how to apply. If you have any questions, please e-mail shanghai.faculty.recruitment@nyu.edu.

About NYU Shanghai:

NYU Shanghai is the newest degree-granting campus within the NYU Global Network University. It is the first Sino-US higher education joint venture to grant a degree that is accredited in the U.S. as well as in China. All teaching is conducted in English. A research university with liberal arts and science at its core, it resides in one of the world’s great cities with a vibrant intellectual community. NYU Shanghai recruits scholars who are committed to NYU’s global vision of transformative teaching and innovative research.

New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. There are three degree-granting campuses in New York, Shanghai, and Abu Dhabi, and complemented by eleven additional academic centers across five continents. Faculty and students circulate within the network in pursuit of common research interests and cross-cultural, interdisciplinary endeavors, both local and global.

NYU Shanghai is an Equal Opportunity/ Affirmative Action Employer
