We are pleased to announce that a two-year postdoctoral position in theoretical physics will be available at Shanghai New York University (NYU Shanghai) as part of NYU-ECNU Institute of Physics at NYU Shanghai (the Institute). The Institute is a joint venture between New York University (NYU) and East China Normal University (ECNU) and a major research and academic platform for NYU Shanghai. More information about the Institute: [http://shanghai.nyu.edu/research/physics](http://shanghai.nyu.edu/research/physics).

The position is expected to start March 1, 2016. The successful applicant will work closely with the Institute's faculty members, both at NYU Shanghai and ECNU, to conduct theoretical research in the areas of quantum information and/or other areas relating to AMO (atomic, molecular, and optical) physics. Qualified applicants are expected to hold a Ph.D. in theoretical physics or related disciplines, with a strong interest in and capability of collaborating with experimentalists.

Applications will be reviewed until the position is filled. To be considered, all applicants must submit an up-to-date curriculum vitae, and the names and contact information of two references. Please visit our website at [http://shanghai.nyu.edu/about/work/fellowships](http://shanghai.nyu.edu/about/work/fellowships) for instructions and other information on how to apply. If you have any questions, please e-mail shanghai.research@nyu.edu.

*About NYU Shanghai:*

NYU Shanghai is the newest degree-granting campus within the NYU Global Network University. It is the first Sino-US higher education joint venture to grant a degree that is accredited in the U.S. as well as in China. All teaching is conducted in English. A research university with liberal arts and science at its core, it resides in one of the world's great cities with a vibrant intellectual community. NYU Shanghai recruits scholars who are committed to NYU’s global vision of transformative teaching and innovative research.

New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. There are three degree-granting campuses in New York, Shanghai, and Abu Dhabi, and complemented by eleven additional academic centers across five continents. Faculty and students circulate within the network in pursuit of common research interests and cross-cultural, interdisciplinary endeavors, both local and global.
