We are pleased to announce that three postdoctoral positions in neuroscience will be available at Shanghai New York University (NYU Shanghai) as part of the NYU-ECNU Institute of Brain and Cognitive Science at NYU Shanghai (the Institute). The Institute is a joint venture between New York University (NYU) and East China Normal University (ECNU) and a major research and academic platform for NYU Shanghai. More information about the Institute: [http://shanghai.nyu.edu/research/brain](http://shanghai.nyu.edu/research/brain).

The positions are expected to start March 1, 2016, each for a two-year term, with the possibility to extend. The successful applicants will work closely with the Institute's faculty members in computational and system neuroscience, research areas include the neural circuit mechanisms of decision-making, memory and learning, language, vision. One major goal is to develop, large-scale circuit model of the mammalian brain, including rodents, non-human primates and humans, in close interplay with experiments. Qualified applicants are expected to hold a Ph.D. in Neuroscience, but we also welcome young talents with a strong quantitative training in Physics, Mathematics, Computer Sciences and Engineering, who want to make a transition to cutting edge neuroscience.

Successful candidates will receive globally competitive compensations, and have the opportunities to spend time at NYU in New York in case of a collaboration between Shanghai and New York.

Applications will be reviewed until the positions are filled. To be considered, all applicants must submit an up-to-date curriculum vitae, and the names and contact information of three references. Please visit our website at [http://shanghai.nyu.edu/about/work/fellowships](http://shanghai.nyu.edu/about/work/fellowships) for instructions and other information on how to apply. If you have any questions, please e-mail shanghai.research@nyu.edu.

About NYU Shanghai:

NYU Shanghai is the newest degree-granting campus within the NYU Global Network University. It is the first Sino-US higher education joint venture to grant a degree that is accredited in the U.S. as well as in China. All teaching is conducted in English. A research university with liberal arts and science at its core, it resides in one of the world's great cities with a vibrant intellectual community. NYU Shanghai recruits scholars who are committed to NYU’s global vision of transformative teaching and innovative research.

New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. There are three degree-granting campuses in New York, Shanghai, and Abu Dhabi, and complemented by eleven additional academic centers across five continents. Faculty and students circulate within the network in pursuit of common research interests and cross-cultural, interdisciplinary endeavors, both local and global.
