Considerations:

- Before studying away, students should complete *Calculus, Multivariable Calculus, Linear Algebra, Probability and Statistics* or *Theory of Probability*, and *Functions of Complex Variables* before studying abroad. Students ideally complete *(Honors) Analysis I* and *Ordinary Differential Equations* before studying in New York.
- Students planning to study away for two semesters are strongly encouraged to spend the first semester in a location other than New York. Applicants who spend the first semester away in another location will receive priority consideration for New York in their second semester away.
- Students who elect to spend spring of their junior year in New York (versus fall of the junior year) will have more earned credit points, which will enable them to have an earlier registration time and have a better chance of enrolling in high-demand courses.
- It is possible to study away at a global location and take no courses that count towards the major while staying on track for graduation.
- Students who wish to be part of the Washington DC Leadership Program ideally plan to apply for junior fall.
- Students who wish to spend two semesters in New York will need to submit a proposal for the second semester demonstrating a compelling academic rationale.
- Students who plan to study in New York, should consider the following:
 - Students should anticipate registering for Mathematics courses at Courant in the College of Arts and Science (CAS).
 - Students will be limited to 2 Mathematics courses the first week of registration.
 - Students may begin registering for approved CAS Mathematics courses the first week of registration when their assigned registration window opens.
 - Students who completed (Honors) Analysis I with a grade of A- or higher may be eligible for ONE graduate-level course at Courant. Registration will require permission of the NYUSH Mathematics area head and the Director of Undergraduate Studies of the NYUNY Mathematics department. Students may check for [additional course requirements](#) and will have to complete a [registration request form](#).
 - Each semester, there are many courses taught in New York that often close to students who are not matriculated majors in the course's sponsoring department; this means they often fill with matriculated NY majors before the majority of students, including students from NYUAD and NYUSH, register. However, a number of these courses are also offered at other global locations, where they are generally open to all students.
 - NYU New York maintains a [campus-wide list](#) covering these courses, along with alternative locations, for the benefit of NYUAD and NYUSH students. All students should consult this list before selecting a study away location and should not include any listed course in their study plans for a semester away in New York.
