Dr. Seungki Min

Chief Executive Officer of
Orthorobotics, Inc., in Seoul
s.min@momaland.co.kr

Overview of Health Professions

- Do you realize that a wide variety of health careers exist?
 - Do you have an explicit health professional goal and plan (e.g. medicine, dentistry, pharmacy, etc.)?
 - How would you leverage undergraduate and graduate education to do what you really want to do?
- 

Health Careers Exploration

- **Is a health career right for you?**
 - What is your motivation to pursue a health career?
 - Are you passionate about keeping up with developments in your field?
 - Are you comfortable in a healthcare setting?
 - Are you a team player?
 - What lifestyle do you envision?

Health Career Exploration

- What types of health careers can you pursue?

- Medicine
- Surgery
- Dentistry
- Midwifery
- Pharmacy
- Psychology
- Nursing
- Public Health
- Allied Health

Health Careers Exploration

- **How long do you commit to the professional training?**
 - *Less Schooling (< 5 years)*
 - Dental Assistant, Licensed Vocational Nurse, Emergency Medical Technician, Pharmacy Technician
 - *Moderate Schooling (5-6 years)*
 - Athletic Trainer, Art Therapist, Cardiovascular Technologist, Health Administrator
 - *Advanced Schooling (> 6 years)*
 - Biostatistician, Dentist, Audiologist, Surgeon

Health Careers Exploration

Summary

Quick Facts: Physicians and Surgeons

2017 Median Pay ?	This wage is equal to or greater than \$208,000 per year or \$100.00 per hour.
Typical Entry-Level Education ?	Doctoral or professional degree
Work Experience in a Related Occupation ?	None
On-the-job Training ?	Internship/residency
Number of Jobs, 2016 ?	713,800
Job Outlook, 2016-26 ?	13% (Faster than average)
Employment Change, 2016-26 ?	91,400

[What Physicians and Surgeons Do](#)

Physicians and surgeons diagnose and treat injuries or illnesses. Physicians examine patients; take medical histories; prescribe medications; and order, perform, and interpret diagnostic tests. They counsel patients on diet, hygiene, and preventive healthcare. Surgeons operate on patients to treat injuries, such as broken bones; diseases, such as cancerous tumors; and deformities, such as cleft palates.

[Work Environment](#)

About half of physicians and surgeons worked in physicians' offices in 2016. Others worked in hospitals, in academia, or for the government.

[How to Become a Physician or Surgeon](#)

Physicians and surgeons have demanding education and training requirements. Physicians typically need a bachelor's degree, a degree from a medical school, which takes 4 years to complete, and, depending on their specialty, 3 to 7 years in internship and residency programs.

[Pay](#)

Annual mean wages for physicians and surgeons are available on the [Pay](#) tab.

Dr. Françoise Guillo

Professor of Practice in
Social Sciences
NYU Shanghai

fog1@nyu.edu

SOCS-SHU 170
Introduction to Global Health

Dr. Xuan Li

SOCS-SHU 445
Topics in Society, Health & Medicine

U.S. Medical School Application

- United States: Doctor of Medicine (MD) and Doctor of Osteopathic Medicine (DO).
 - Both are 4-year programs followed by a residency of 3-8 years.
 - Applicants have to first hold a 4-year Bachelor's degree.
 - Many medical school applicants major in science but that is not necessarily required.
 - Admission committees are looking for candidates with **strong analytical, critical thinking, research and oral and written communication skills.**

U.S. Medical School Application

- Required Prehealth Courses

- One year of Biology
- One year of Physics
- One year of English and Writing
- Two years of Chemistry (through organic chemistry)
- Calculus
- Biochemistry I.
- Some schools may require additional courses, particularly in mathematics and/or biochemistry.
- Two courses in behavioral/social sciences strongly recommended. For example: Intro to Psychology, Introduction to Sociology (SOC-UA 1).

U.S. Medical School Application

- The Medical College Admission Test (MCAT)
 - Required by practically all medical schools in the United States and Canada.
- Extracurricular Involvement
 - Clinical experience
 - Research experience
 - Civic engagement
 - Student clubs and organizations
- Committee Letter of Evaluation
 - NYU Shanghai writes the applicant an institutional letter of evaluation.

What is a Good GPA for Med School?

	APPLICANTS	MATRICULANTS
Science GPA	3.45	3.64
Non-Science GPA	3.70	3.79
Total GPA	3.56	3.71

SOURCE: [Association of American Medical Colleges](#)

Can I apply for US medical schools as an international student?

- Current data from the [Association of American Medical College](#) suggests that roughly **1%** of the medical students in the United States are international students.
- Consider different professional paths and the training required.
- Consider where you hope to practice.
- Research alternative funding options.
