A postdoctoral position will begin September 1, 2018 at the Center for Society, Health, and Medicine at NYU Shanghai. The position is for one academic year with the possibility of a one-year renewal. The postdoctoral fellow will have research and academic interests in line with the Center’s priorities (see below).

Responsibilities: Organizing workshops, conferences, and outside speaking events at the Center; assisting in planning and participating in the Topics in Society, Health, and Medicine seminar held every Spring semester; maintaining the web presence of the Center, including the podcast series; designing a publication series; helping to expand a network of faculty affiliates in the NYU Global Network and beyond; managing student assistants and graduate student visitors.

Qualifications: Required Education—Ph.D. in anthropology, history of medicine, social studies of science, or a related field. Required Experience—Experience teaching, particularly in undergraduate settings, is highly desirable. Required Knowledge, Skills, and Abilities—Demonstrated ability to organize public programs, coordinate research workshops and conferences, and to collaborate on research projects in China and beyond. Proficient in both written and spoken English; Mandarin fluency is a plus but not required. Good interpersonal and communication skills to work in an international environment; Good time management skills; Independent and self-motivated. Interested applicants should apply via Interfolio at http://apply.interfolio.com/48491. The review of applications will begin March 01, 2018.

About the Center for Society, Health, and Medicine:
The Center for Society, Health, and Medicine (CSHM) advances the humanistic study of medicine and health systems—globally and locally—by turning critical attention towards the institutions, histories, and practices that define global health today. CSHM supports student scholarship and research, strengthens ties between faculty members working in a broad range of areas related to medicine and the health sciences, and creates opportunities for external scholars and practitioners to participate in the dynamic academic environment of NYUSH. The academic aim of CSHM is to create links between scholars engaged in the humanistic study of health and illness from various fields, including anthropology, history, bioethics, sociology, clinical medicine, science and technology studies, social work, nursing, and public health sciences. The programmatic aim of CSHM is to foster broad disciplinary intersections in order to give students the chance to consider the reach and application of their learning in different areas, thus reinforcing the interdisciplinary character of academic programs at NYUSH.

About NYU Shanghai:
NYU Shanghai is the newest degree-granting campus within New York University’s global network. It is the first higher education joint venture in China authorized to grant degrees that are accredited in the U.S. as well as in China. All teaching is conducted in English. A research university with liberal arts and science at its core, it resides in one of the world's great cities with a vibrant intellectual community. NYU Shanghai recruits scholars of the highest caliber who are committed to NYU’s global vision of transformative teaching and innovative research and who embody the global society in which we live.

NYU’s global network includes degree-granting campuses in New York, Shanghai, and Abu Dhabi, complemented by eleven additional academic centers across five continents. Faculty and students circulate within the network in pursuit of common research interests and cross-cultural, interdisciplinary endeavors, both local and global.

NYU Shanghai is an equal opportunity employer committed to equity, diversity and social inclusion. We strongly encourage applications from individuals who are under-represented in the profession, across color, creed, race, ethnic and national origin, physical ability, and gender and sexual identity. NYU Shanghai affirms the value of differing perspectives on the world as we strive to build the strongest possible university with the widest reach.
